

Goal Statement

Washington Components Ltd.'s goal is to be the customers 1st choice supplier of complex components and fabrications by providing un-rivalled quality during project and order execution. We are committed to provide our partners with the best value project management, products and services while protecting our employees and their quality of professional life.

Quality Policy

Our quality policy is used to establish, implement and maintain an effective and efficient Quality Management System (Q.M.S.) which conforms to the latest requirements of BS EN ISO 9001 standard.

At Washington Components Ltd we target excellence and reliance in everything we do. The team are proud and take great pride in their work. We ensure everything we produce is of a consistent high quality and delights our customer every time.

Through Objective Setting, the team challenge and aim to continually improve upon all that we do. We create value for our customers by understanding their needs and improving every aspect of our work.

We call this “The Washington Components Way”.
